ANTI-RACISM TRAINING

Are you unsure what the difference is between racism and personal prejudice? How racism is a system beyond individual choices? Why racism still grips the United States? And how we, as people of faith, can help dismantle it internally and socially?

If these questions interest you, plan on attending this workshop. You don't have to have been trained before. All that is required is some time and an open heart and mind.

Registration: \$40
(includes light breakfast and lunch)

Visit www.cncn.org to register

Note: Standing requirements for DOC Ordained and commissioned clergy now include anti-racism training every two years. Lay people are invited and encouraged to attend.
