

Position to be Voted

Concerned about any erosion on our First Amendment right to boycott as a nonviolent tool for effecting social change and expressing our values, the Northern California Nevada Conference of the United Church of Christ opposes the Israel Anti-Boycott Act (S.720 in the Senate, H.R. 1697 in the House) and urges all Members of Congress (House and Senate) to actively oppose this bill, withdrawing their names if they are already cosponsors. This decision is to be officially communicated in writing to California's & Nevada's senators and to all elected representatives of congressional districts in the territorial area of the Conference. Additionally, churches and church members are encouraged to express their opposition to the bill by contacting their respective representatives and California's & Nevada's senators.
